WINONA LAKE, Ind. Aug. 25 .- The principal feature of to-day at Winona was the dedication of the Moody Memorial Home for ministers, which was given by Dr. J. Wilbur Chapman, director of the St. Petersburg, Fla., and Mrs. S. E. Mc-Winona Bible Conference. The services Gaughey, of Chicago. were to have been held Thursday, but were postponed to enable President McKinley to be present. The President postponed his Western trip, however, so the Winonians were disappointed. They were also disappointed in not having Governor Mount present. The Governor expected to come until last night.

The dedicatory services were held th morning about 11 o'clock. Dr. Chapman opened the services with a short address after which he called upon all the speakers teachers of the Bible Conference to make short addresses. Among those who spoke were Dr. Moorehead, Dr. Woelfkin, Mr. Don O. Shelton, Mr. Hadley and Mr. Gordon. Dr. Chapman then made the final presentation speech, turning the new building over to the board of directors of the Winona Assembly. Thomas Kane, president of the assembly and summer school, made the speech of acceptance on behalf of the board of directors. The Rev. Sol C. Railway Employes Threatening Strike-Card Sharps on Steamships-Americans Returning.

[Copyright, 1900, by the Associated Press.] LONDON, Aug. 25 .- Forgetting the Chinese puzzle and the unending war in South Africa and the reconstruction of that country, a strike on a little one hundred-mile Welsh railroad stirs up more serious interest than anything else in England this week, because it is closely related to the coal supply and the manufacturing vitality of the kingdom. The Taff Vale Railroad carries the product of fifty thousand coal miners into Cardiff. The fifth day of the strike sees small quantities of the best steam coal commanding 35 shillings. All the Cardiff factories are shut down, and the merchant fleet are unable to leave the harbor because they have not been supplied with coal. Most of the mines are still piling up coal at the pit mouths. All will probably be idle in another week. The cause of the dispute is that 2,000 railway in this place. The middle of August finds London in the apogee of the season, while the exodus of returning tourists is limited only to the carrying capacity of the outgoing steamers. Mr. C. A. Gillig, who is an expert at calculating American travel in Europe, said to a representative of the Associated Press: "It is nonsense to talk about 150,000 Americans crossing the Atlantic this season. Their numbers are always exaggerated. There is only a certain number of transtlantic lines, each limited to a number of ships of well-known capacity. Going over the question with a little care I estimate that there will be about 85,000 Americans in Europe during the season. The tide of travel is Western now and until Oct. 1 will be tremendous. XXX It is not often that any American resident in England secures a place in Vanity Fair's portrait gallery and far less frequently does the subject of those pleasant caricatures resent them. The introduction of the young King of seacoast provinces was attended by a degree of good feeling not before seen in Spain in generations. Even in the provinces where socialistic and dynastic discontent is always verging on insurrection, the people showed patriotic pleasure and a desire to forget the past diasters and accept the new order of things.

It would be supposed that the question of the superiority of the American method of riding race horses had been sufficiently demonstrated by this time to convince even the conservative British horsemen. The sporting papers, however, are still filled daily with letters on this subject. The bitter reluctance with which the friends of British jockeys admit the advantage of the American system is a curious part of the controversy. This has gone so far that a writer in the Sportsman to-day calls for a halt in the discussion and advocates the American system which, he says, "certainly suits our horses, owners and trainers." adding: "Let us still be sportsmen, even if we are beaten at our own game."

The note was a personal act of the Pope, and its avowal as such was meant to rebuke those representing the pontiff as an aged man and as a tool in the hands of Cardinal Rampolla, the papal secretary of state, the truth being that Rampolla is as clay in the masterful hands of the pontifical potter, and bends like a reed before the imperious will of Leo. The Pope, in spite of his years, is still the soul of the Vatican and rules his entourage with rod of iron."

GUAM TO BE PROTECTED

GREAT FORTIFIED NAVAL STATIC WILL BE ESTABLISHED.

To Be Used as the Base for United States Warships in Pacific and Oriental Waters.

WASHINGTON, Aug. 25.-The Navy Deartment has taken the initial steps in th preparation for the complete and comprepensive system of fortifications and harbor improvements by which it is intended to make the island of Guam a thoroughly protected base for our naval vessels in the western Pacific. The authority for the preliminary work in this line was granted under the act of June 6 of this year in the appropriation for river and harbor improvements. The special charts prepared in this connection show that the United States has but two stations on the line of travel across the Pacific between San Francisco and Manila. One of these is Honolulu and the other is Guam, 3,500 miles westward. There is another stretch of over

1,600 miles west of Guam before Manila is

The Navy Department has been at pains to ascertain just what harbor facilities other nations have in that part of the world, and the maps already prepared show that southward from Guam we were flanked for 2,500 miles by a chain of thirteen islands, containing thirteen fine harbors, all of them potential bases of hostile powers. Some of them already are Mary Anderson (Mrs. Antonio Navarro) equipped and fortified. These harbors are included in the Marshall and Caroline groups, which stretch from the southern the longitude of Guam, while on the north the Ladrones possess several harbors, some of them as close as forty miles to our possessions in Guam. In view of all these facts it has been determined to make Guam a great naval base, thoroughly equipped with supplies for our squadrons and as nearly impregnable as possible against a hostile fleet. A mixed commission of one army and two naval officers already has been assigned to the work of the preliminary survey, and upon their recommendations the future work in this line will be based. The officers are Capt. J. F. Merry, now on duty at the naval station in Honolulu, Major Biddle, of the army engineer corps, now on duty in the Philippines, and Lieut. A. M. Beecher, now on duty in Washington and recently attached to the naval surveying ship Eagle. Lieutenant Beecher is accumulating the outfit for the commission here, and shortly will proceed to San Francisco, whence he will sail on the Solace about Oct. 1, picking up Captain Merry at Honolulu, while Major Biddle will come eastward to meet the other two members of the commission. The inauguration of this work is viewed with a great deal of interest by the officers of the Navy Department, and is conyet taken for the maintenance of our po-

> NEW YORK, Aug. 25.-After a journey of 3,000 miles to ride ex-Secretary of the Navy William C. Whitney's colt, Ballyhoo Bey, Tod Sloan, the whilom American jockey who has done all his riding in England for the last two years, succeeded in sending his mount first past the wire in the rich Futurity stakes at Sheepshead Bay to-day, and gathered in \$32,830 for his employer. The favorite, Olympian, was second, and Tommy Atkins, from the same stable, landed in third place with the others trailing. The winner was ridden out.

The attendance at the big race was not as large as had been expected, for it was thought the track would be deep in mud and such was the case at 10 o'clock in the morning. Nevertheless fully 15,000 people were on the grandstand, on the lawn against the rails of the inner field and up "free field" when the horses were called to the post just before 4:30 o'clock. The crowd had been coming in steadily since noon, but there was no great rush at any time. to bring into close touch those who were dom, with £250,000 in the treasury and a "It is prohibition, has caused indignant From sunrise until the first race was called and between the races a big gang of men and harrowing it, turning up the wet soil to the drying heat of the sun and it was in good condition when the race was called. to the great surprise of everybody.

The big crowd waited patiently through the first race, and applauded wildly when the Whitney youngster, Rowdy, was set back from second place for a foul. They saw Mr. Whitney win the second with Rush, and then plunged on Jean Beraud to win the Fall handicap, but Sloan, who had the mount, after getting off flatfooted, Aug. 31. Henry Labouchere asserts, at rode into a pocket in the stretch and was THE BIG RACE.

> Then came the big race and the parade of the highly bred youngsters led by the Keene trio-Tommy Atkins, Cap and Bells and Olympian-with Elkhorn and Ballyhoo Bey, of the Whitney string, next, and the others following. They got to the post promptly, and in a very few minutes came the first break, which was a false one, Golden Age refusing to join his company. The second was worse, for three refused. But the started caught them in line the third time, the red flag swished through the air and they were off to a good start. Spencer, who rode on Cap and Bells of the Keene string, rushed his mount into the lead at once, but Sloan, on Ballyhoo Bey, was not caught napping, and sent his horse alongside the flying filly. Elkhorn, Golden Age and Tommy Atkins were close up, and they came down the chute like a line of cavalry. Spencer, who was plainly out to make the running for his stable mates, sent Cap and Bells along at her best speed. but do what she could it was impossible to shake off Ballyhoo Bey, which, a neck away, was practically helping her make the pace. Sloan was crouched low over her neck, wide awake to his advantage, as he was in a position to choose his own going on a track that was dry and wet in

At the end of the first furlong Henry had brought Olympian, another Keene trio, from eighth place to third, and was a length and a half behind Ballyhoo Bey, while Tommy Atkins, Elkhorn and Sweet Lavender were heads apart and a half length away, the others being already far out of the race. The positions were unchanged through the next furlong. Cap and Bells and Ballyhoo Bey were running head and head in front, the latter going much the easier of the two, Sloan looking around for danger from behind. All through tuck second, Alex third. Time, still held a slight advantage, but it was plain to all that she could not hope for speed to the end. The pace was beginning ian along to take issue with Ballyhoo Bey. These three rounded the bend into the stretch necks apart, but Cap and Bells was done and from this point gradually dropped behind, Spencer easing her up when he found she was beaten. A DESPERATE FINISH

Ballyhoo Bey was still running strong and true, and a furlong from home was a Atkins already under the whip, closing strong a length back. From there home it was a hard drive. The crowd in the grand stand were shouting and cheering, the hysterical shrieks of women rising above all. "The favorite wins," was the "Ballyhoo Bey wins," was then heard from the followers of the Whitney stable. Sloan whip and spur. Henry was also working was hard to tell which would stand the drive best. Gradually, however, Sloan, with all his skill and cunning, drew away with Ballyhoo Bey, and amidst the wildest enthusiasm sent the game little colt across the finish line a length and a half before Olympian. Tommy Atkins was third, a length behind his stable mate, while five lengths away Sweet Lavender headed the balance of the tired field. The Futurity of 1900 was over and Ballyhoo Bey, for whom William C. Whitney paid \$12,000 as a yearling, was the hero of the day. Sloan and his fleet mount got an ovation when they cantered back to weigh in, the band played "Hail to the Chief." and the lucky winners pushed wildly into the ring to cash. Ballyhoo's time was 1:10. The heat record for the Futurity course was made by Kingston in 1891 and was 1:08. The opening betting to-day was as follows: Keene's stable (Tommy Atkins, Olympian and Cap and Bells), 4 to 5; Whitney stable (Elkhorn and Ballyhoo Bey), 5 to 2; Blues, 8 to 1; Sweet Lavender, 20 to 1: Belvino, 30 to 1; Golden Age, 30 to 1; All Green, 15 to 1; Lady of the Valley, 30 to 1; Tower of Candles, 30 to 1.
